TEACH AGREEMENT  
ON UTAH QUESTION

WASHINGTON, June 21.—An understanding has been reached which will settle much of the friction between the white settlers in the use of water on the Utah Indian reservation in a two-hour conference held yesterday between Senator King, Representative Don B. Colton, Secretary of the Interior A. B. Fall, and officials of the Interior Department.

The Interior Fall has promised to send a representative to the reservation to determine the feasibility and desirability of segregating a part of the Indians with a view to their ultimate removal to white settlers.

The grievances of the white settlers have been laid before the officials by Senator King and Mr. Colton, who explained that the settlers had suffered from the arbitrary manner in which the reservation had been controlled with regard to the rights of those who had gone on the reservation under authority of law, and then been deprived of even a voice in matters affecting their property rights.

Secretary Fall conceded that the Interior had no foundation for their complaint and gave assurance that in the future there would be co-operation between the Indian officials and the white settlers, and that the latter would be given a voice in settling questions affecting distribution of water under canals which serve the lands as well as lands of Indians, and also a voice regarding the proposed to be levied against the land for the cost of irrigation. Senator King and Mr. Colton were wholly satisfied with the assurance given by the secretary.

IDAHO REGISTER  
WILL BE OUSTED

WASHINGTON, June 21.—Refusing to resign after having been called upon to vacate his office, Register Ben Gray of the Idaho, land of the state, will be automatically removed from office at an early date because of the appointment of a new register.

John E. Williams, Democrat, was appointed register at Hallett, April 23, and died in December, 1915. Thereafter Gray was named to fill the vacancy.

This administration, like the previous administration, has held the office for eight years, even though more than one incumbent has served during that period, it shall be considered that such combined service would displace the incumbent with the coming of the party in power, Gray wishes to abide by this rule, and inasmuch as he has been allowed to serve out his full term, which would continue him in office until 1923, Secretary Fall following the rule, has named a successor to Gray, and when the same is submitted Gray's official term will end.

But a good many strong

MINERS TOLD  
TO OBEY LAW

National Organizer Talks to  
Strikers; Census of Camps  
Is Under Way

HELPER, June 21.—There were 350 present at the meeting held yesterday in Liberty hall of striking miners, at which W. A. Houston, national organizer of the United Mine Workers of America, was the principal speaker. He said that this was the first strike in his experience in which strikers had not been brought in freely and under protection and advised the men to obey the law.

OBJECT OF STRIKE  
Organizer Houston said that the one object of the strike was to get rid of the mine guards, under whom he said the miners in Utah in the past had been kept in peonage. He said that strike conditions were most favorable for a successful outcome, which he looked for between July 1 and 15. He said that he had been told that the mines are shipping 60 per cent of normal for this time of the year. Forty per cent of this 60 per cent, however, he declared, is coming from stocks which are being depleted. He said that he had the word of Major Johnson that there would be no general importation of strikebreakers, but that men wishing to go to work individually would be permitted to do so and would be protected. Speakers also addressed the strikers in Greek and Italian. Houston further told the miners: "We want the right to have mine committees and we want a contract. Picket lines will be used, reestablished in Helper, although prohibited in Spring Canyon, and trains will be met as formerly."

Captain S. Grant Young of the national guard told the miners that military law was being enforced impartially and without favor to either side, and that although some incidents of searching might be unpleasant, they were necessary.

CLEANUP RAID  
There was a cleanup raid at New Helper, where the guard made a preliminary search yesterday on its arrival. A few pistols and a dirk were taken. Fifteen guns were turned in voluntarily at Helper. Ten men under Lieutenant John Sumner visited strikers' tents at Kendlworth.

Sixty-five tents arrived here yesterday making a total of 130 available for strikers who wish to live in them. The four men driven out of Stansbury before the arrival of the troops have prepared a list of jewelry, money and goods which they declared were taken from their possession or after their departure. This list will be submitted to Stylian Stages, Greek consul in Utah.

Complaint was made to the yardmaster by a train crew that they had been stopped on the way to Kendlworth last night by a guard sentry. It was explained that the sentry had probably misunderstood his instructions.

SHOTS BRING RESULT  
Two women in an automobile attempted to drive past the guards on the road out of Helper last night. They disregarded the order to halt, but came back speedily when the guards fired a warning over their heads.

Complaint has been made to Major Johnson that after the search of the American Candy company's store here for guns recently, jewelry valued at about \$250 had disappeared. This jewelry is said to have been intended as a wedding present for Tony Gegalidis, for the killing of whom Andres Konez was found guilty at Price on Friday. Three officers were present when the guardsmen made the search. They said nothing of value was found.

CAMPS CLOSED  
SCOTFIELD, June 21.—Under orders of Major Hamilton Gardner, Clear Creek, Winterquarters and all other camps have been closed to all outsiders. Not even individuals intending to enter the camps are permitted entrance to the district. All persons arriving in Scotfield are taken at once to guard headquarters. Some are sent back and others are held at the guardhouse pending investigation.

According to information received by Major Gardner, the properties at Clear Creek are running full capacity, those at Winterquarters at from 60 to 70 per cent capacity. Operations at Scotfield have been stopped since the strike began.

TAKING CENSUS  
A complete census is being taken in Scotfield. This gives the commanding officer an absolute check on every person within his jurisdiction and makes for prompt action when necessary.

A squad under Lieutenant H. W. Morrison has been patrolling the town and hills about Winterquarters. Six gallons of beer and some moonshine were taken in a raid.

The score of guardsmen sent from Bountiful and Provo have arrived here and have been assigned to duty. Late last night Major Gardner and Major E. D. Thomas conducted a search of all coffee halls and pool halls for arms and liquor. At the conclusion it was the judgment that all weapons have either been turned in or have been concealed with exceptional care.
